

DESTILERÍA

EL SABIN

# DESTILERÍA EL SABINO

The El Sabino Distillery, which produces Tequila López, has a long tradition that dates back to the 18th century. It is made from 100% blue agave from the Las Presas Ranch, using both artisanal and industrial techniques. The combination of these methods ensures complex flavors and a smooth taste. The distillery is renowned for its quality and its deep connection to Mexican tradition.

# LÓPEZ

Our Tequila is created through the combination of two production methods: one artisanal and one industrial. By blending the best aspects of both techniques, we craft the distinctive profile (40% ABV) that makes our 100% agave tequila the best on the market.

**Artisanal Process:** Agaves are cooked in masonry ovens, crushed in a stone mill, and fermented in wooden barrels with some bagasse. Distillation takes place in copper pot stills.

**Industrial Process:** Hydrolysis in stainless steel autoclaves, milling in a four-stage milling system, fermentation and distillation in stainless steel tanks and stills.

Lopez Tequila Blanco offers herbal and floral nuances for freshness, sweet and mineral notes for elegance, and a smooth, silky texture for a pleasant finish.
